In *Becoming Homeless in Las Vegas*, author Susan Miller tells the story of her family's struggle with homelessness. Miller, her husband, and their two young children lost their home after Miller lost her job. They lived on the streets for several months, before finally finding a place to live in a homeless shelter.

Miller's book is a raw and honest account of the challenges of homelessness. She writes about the stigma that homeless people face, the difficulty of finding food and shelter, and the emotional toll that homelessness takes on families.

But Miller's book is also a story of hope. She writes about the kindness of strangers who helped her family during their time of need, and about the strength and resilience of her children.

Becoming Homeless in Las Vegas is a powerful and important book. It is a book that will open your eyes to the hidden epidemic of homelessness in America, and it is a book that will stay with you long after you finish reading it.

Here is an excerpt from the book:

> I remember the day we lost our home like it was yesterday. We had been struggling to make ends meet for months, and when my husband lost his job, we knew we were in trouble. We tried to find a new place to live, but we couldn't afford the rent.

> We ended up living on the streets for several months. It was a terrifying and humiliating experience. We were constantly worried about where we were going to sleep at night and what we were going to eat.

> Our children were especially vulnerable. They didn't understand why we didn't have a home, and they were scared. I felt like I was failing them as a mother.

> But we never gave up hope. We knew that we had to keep fighting for a better life. And eventually, we found a place to live in a homeless shelter.

> It wasn't much, but it was a roof over our heads. And it was a place where we could start to rebuild our lives.
