

Latino Mass Mobilization: Immigration, Racialization, and Activism

In recent years, Latino mass mobilization has emerged as a major force in American politics. From the massive protests against Arizona's SB 1070 to the nationwide demonstrations following the election of Donald Trump, Latinos have taken to the streets in unprecedented numbers to demand their rights and challenge their marginalization.

This book examines the history of Latino mass mobilization in the United States, focusing on the role of immigration, racialization, and activism in shaping Latino political participation. We argue that Latino mass mobilization is a product of the unique experiences of Latinos in the United States, and that it has played a critical role in shaping American politics and society.

Chapter 1: The History of Latino Mass Mobilization

The history of Latino mass mobilization in the United States can be traced back to the early 20th century, when Mexican immigrants began to organize to fight for their rights. In the 1930s, the Mexican Repatriation Program forced hundreds of thousands of Mexicans to return to Mexico, sparking a wave of protests and activism. In the 1960s, the Chicano Movement emerged, demanding civil rights and self-determination for Mexican Americans. And in the 1980s, the Central American refugee crisis led to the formation of new Latino organizations and the mobilization of Latinos against US intervention in Central America.

In the 21st century, Latino mass mobilization has continued to grow, with Latinos playing a major role in the protests against the Iraq War, the passage of the Affordable Care Act, and the election of Barack Obama. In 2016, Latinos were at the forefront of the protests against Donald Trump's election, and they have continued to mobilize to resist his policies.

Chapter 2: Immigration and Latino Mass Mobilization

Immigration has been a major driver of Latino mass mobilization in the United States. Latinos are the largest immigrant group in the United States, and they have often faced discrimination and hostility from nativist groups. This has led Latinos to organize and mobilize to defend their rights and to demand fair treatment.

In recent years, immigration reform has been a major issue for Latino activists. Latinos have been at the forefront of the fight for comprehensive immigration reform, and they have organized massive protests to demand a path to citizenship for undocumented immigrants.

Chapter 3: Racialization and Latino Mass Mobilization

Racialization has also played a major role in shaping Latino mass mobilization. Latinos are often racialized as "other" in American society, and they have faced discrimination and prejudice based on their race and ethnicity. This has led Latinos to organize and mobilize to challenge their marginalization and to demand equal rights.

In recent years, the Black Lives Matter movement has had a major impact on Latino activism. Latinos have been active participants in the Black Lives Matter protests, and they have organized their own protests to demand an end to police brutality and racial profiling.

Chapter 4: Activism and Latino Mass Mobilization

Activism has been a key factor in the development of Latino mass mobilization. Latino activists have played a crucial role in organizing protests, rallies, and other forms of political action. They have also worked to build alliances with other groups, such as labor unions and civil rights organizations, to strengthen the Latino movement.

In recent years, Latino activists have been using social media and other online tools to organize and mobilize Latinos. This has helped to expand the reach of Latino activism and to connect Latinos with each other.

Latino mass mobilization is a powerful force in American politics. It is a product of the unique experiences of Latinos in the United States, and it has played a critical role in shaping American politics and society. As Latinos continue to face discrimination and marginalization, they will continue to mobilize to demand their rights and to challenge their status as second-class citizens.
